1. Product and Company Identifaction

www.rxmarine.com

Product Name RXSOL-19-1267
Product Type Acetic Acid

Company Details:

RX MARINE INTERNATIONAL 105, A wing , BSEL , TECH PARK. VASHI ,NEW BOMBAY 400703 INDIA

Stock Point: Mumbai, Gandhidham, Kolkata, Chennai, Viskhapatnam, Fujairah, Muscat

Phone +91 22 27815540 / 41 / 42

Fax +91 22 2781 1318 :::AOH :0091 9821214367

Email <u>mail@rxmarine.com</u>

2. Composition / Information on ingredients

www.rxmarine.com

 Name
 CAS #
 % by Weight

 Acetic acid
 64-19-7
 100

Toxicological Data on Ingredients: Acetic acid: ORAL (LD50): Acute: 3310 mg/kg [Rat]. 4960 mg/kg [Mouse]. 3530 mg/kg [Rat]. DERMAL (LD50): Acute: 1060 mg/kg [Rabbit]. VAPOR (LC50): Acute: 5620 ppm 1 hours [Mouse].

3. Hazards Identification

www.rxmarine.com

Potential Acute Health Effects:

Very hazardous in case of skin contact (irritant), of eye contact (irritant), of ingestion, of inhalation. Hazardous in case of skin contact (corrosive, permeator), of eye contact (corrosive). Liquid or spray mist may produce tissue damage particularly on mucous membranes of eyes, mouth and respiratory tract. Skin contact may produce burns. Inhalation of the spray mist may produce severe irritation of respiratory tract, characterized by coughing, choking, or shortness of breath. Inflammation of the eye is characterized by redness, watering, and itching. Skin inflammation is characterized by itching, scaling, reddening, or, occasionally, blistering.

Potential Chronic Health Effects:

Hazardous in case of skin contact (irritant), of ingestion, of inhalation. CARCINOGENIC EFFECTS: Not available. MUTAGENIC EFFECTS: Mutagenic for mammalian somatic cells. Mutagenic for bacteria and/or yeast. TERATOGENIC EFFECTS: Not available. DEVELOPMENTAL TOXICITY: Not available. The substance may be toxic to kidneys, mucous membranes, skin, teeth. Repeated or prolonged exposure to the substance can produce target organs damage. Repeated p. 2 or prolonged contact with spray mist may produce chronic eye irritation and severe skin irritation. Repeated or prolonged exposure to spray mist may produce respiratory tract irritation leading to frequent attacks of bronchial infection.

4. First Aid Measures

www.rxmarine.com

Eye Contact: Check for and remove any contact lenses. In case of contact, immediately flush eyes with plenty of water for at least

water may be used. Get medical attention immediately.

Skin Contact: In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated c

Cover the irritated skin with an emollient. Cold water may be used. Wash clothing before reuse. Thoroughly clean shoes

medical attention immediately.

Serious Skin Contact: Wash with a disinfectant soap and cover the contaminated skin with an anti-bacterial cream. Seek immediate medical att

Inhalation: If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get

immediately.

Serious Inhalation:

Evacuate the victim to a safe area as soon as possible. Loosen tight clothing such as a collar, tie, belt or waistband. If bre administer oxygen. If the victim is not breathing, perform mouth-to-mouth resuscitation. WARNING: It may be hazard providing aid to give mouth-to-mouth resuscitation when the inhaled material is toxic, infectious or corrosive. Seek in attention.

Ingestion:

Do NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconsciotight clothing such as a collar, tie, belt or waistband. Get medical attention if symptoms appear.

Serious Ingestion: Not available.

5. Fire-fighting Measures

www.rxmarine.com

Flammability of the Product: Flammable.

Auto-Ignition Temperature: 463°C (865.4°F)

Flash Points: CLOSED CUP: 39°C (102.2°F). OPEN CUP: 43°C (109.4°F).

Flammable Limits: LOWER: 4% UPPER: 19.9%

Products of Combustion: These products are carbon oxides (CO, CO2).

Fire Hazards in Presence of Various Substances: Flammable in presence of open flames and sparks, of heat. Slightly flammable to flammable in presence of oxidizing materials, of metals.

Explosion Hazards in Presence of Various Substances: Risks of explosion of the product in presence of mechanical impact: Not available. Risks of explosion of the product in presence of static discharge: Not available. Slightly explosive in presence of oxidizing materials.

Fire Fighting Media and Instructions: Flammable liquid, soluble or dispersed in water. SMALL FIRE: Use DRY chemical powder. LARGE FIRE: Use alcohol foam,

water spray or fog. Cool containing vessels with water jet in order to prevent pressure build-up, autoignition or explosion.

Special Remarks on Fire Hazards: Reacts with metals to produces flammable hydrogen gas. It will ignite on contact with potassium-tert-butoxide. A mixture of

ammonium nitrate and acetic acid ignites when warmed, especially if warmed.

Special Remarks on Explosion Hazards: Acetic acid vapors may form explosive mixtures with air. Reactions between acetic acid and the following materials are potentially explosive: 5-azidotetrazole, bromine pentafluoride, chromium trioxide, hydrogen peroxide, potassium permanganate, sodium peroxide, and phorphorus trichloride. Dilute acetic acid and dilute hydrogen can undergo an exothermic reaction if heated, forming peracetic acid which is explosive at 110 degrees C. Reaction between chlorine trifluoride and acetic acid is very violent, sometimes explosive.

6. Accidental Release Measures

www.rxmarine.com

Small Spill:

Dilute with water and mop up, or absorb with an inert dry material and place in an appropriate waste disposal conta Neutralize the residue with a dilute solution of sodium carbonate.

Large Spill:

Flammable liquid. Corrosive liquid. Keep away from heat. Keep away from sources of ignition. Stop leak if without risk in its solid form: Use a shovel to put the material into a convenient waste disposal container. If the product is in its liquid with DRY earth, sand or other non-combustible material. Do not get water inside container. Absorb with an inert may spilled material in an appropriate waste disposal. Do not touch spilled material. Use water spray curtain to divert vapor d into sewers, basements or confined areas; dike if needed. Call for assistance on disposal. Neutralize the residue with a sodium carbonate. Be careful that the product is not present at a concentration level above TLV. Check TLV on the MS authorities.

7. Handling and Storage

www.rxmarine.com

Precautions:

\Keep away from heat. Keep away from sources of ignition. Ground all equipment containing material. Do not ingest

gas/fumes/ vapor/spray. Never add water to this product. In case of insufficient ventilation, wear suitable respirate ingested, seek medical advice immediately and show the container or the label. Avoid contact with skin and eyes. incompatibles such as oxidizing agents, reducing agents, metals, acids, alkalis.

Storage: Store in a segregated and approved area. Keep container in a cool, well-ventilated area. Keep container tightly closed and

for use. Avoid all possible sources of ignition (spark or flame).

8. Exposure controls and personal protection

www.rxmarine.com

Engineering Controls: Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapors below their re

limit value. Ensure that eyewash stations and safety showers are proximal to the work-station location.

Personal Protection:

Personal Protection in Case of a

Large Spill: Exposure Limits: Splash goggles. Synthetic apron. Vapor respirator. Be sure to use an approved/certified respirator or equivalent. Gloves (i Splash goggles. Full suit. Vapor respirator. Boots. Gloves. A self contained breathing apparatus should be used to avoid product. Suggested protective clothing might not be sufficient; consult a specialist BEFORE handling this product.

9. Physical and chemical properties

www.rxmarine.com

Physical state and appearance: Liquid.

Odor: Pungent, vinegar-like, sour (Strong.)

Taste: Vinegar, sour (Strong.)

Molecular Weight: 60.05 g/mole

Color: Colorless. Clear (Light.)

 pH (1% soln/water):
 2 [Acidic.]

 Boiling Point:
 118.1°C (244.6°F)

 Melting Point:
 16.6°C (61.9°F)

 Critical Temperature:
 321.67°C (611°F)

 Specific Gravity:
 1.049 (Water = 1)

 Vapor Pressure:
 1.5 kPa (@ 20°C)

 Vapor Depositive
 2.07 (Air = 1)

Vapor Density: 2.07 (Air = 1)
Volatility: Not available.
Odor Threshold: 0.48 ppm

Water/Oil Dist. Coeff.: The product is more soluble in water; log(oil/water) = -0.2

Ionicity (in Water): Not available.

Dispersion Properties: See solubility in water, diethyl ether, acetone.

Solubility: Easily soluble in cold water, hot water. Soluble in diethyl ether, acetone. Miscible with Glycerol, alcohol, Benzene, Carbo

Practically insoluble in Carbon Disulfide.

10. Stability and reactivity

www.rxmarine.com

Stability: The product is stable.

Instability Temperature: Not available.

Conditions of Instability: Heat, ignition sources, incompatible materials

Incompatibility with various substances: Reactive with oxidizing agents, reducing agents, metals, acids, alkalis.

Corrosivity: Highly corrosive in presence of stainless steel (304). Slightly corrosive in presence of aluminum, of copper. Non-corrosive in presence of stainless steel (316).

Special Remarks on Reactivity: Reacts violently with strong oxidizing agents, acetaldehyde, and acetic anhydride. Material can react with metals, strong bases, amines, carbonates, hydroxides, phosphates, many oxides, cyanides, sulfides, chromic acid, nitric acid, hydrogen peroxide, carbonates.

ammonium nitrate, ammonium thiosulfate, chlorine trifluoride, chlorosulfonic acid, perchloric acid, permanganates, xylene, oleum, potassium hydroxide, sodium hydroxide, phosphorus isocyanate, ethylenediamine, ethylene imine.

Special Remarks on Corrosivity: Moderate corrosive effect on bronze. No corrosion data on brass

Polymerization: Will not occur.

11. Toxicological information

www.rxmarine.com

Routes of Entry: Absorbed through skin. Dermal contact. Eye contact. Inhalation. Ingestion.

WARNING: THE LC50 VALUES HEREUNDER ARE ESTIMATED ON THE BASIS OF A 4-HOUR EXPOSURE. A Toxicity to Animals:

(LD50): 3310 mg/kg [Rat]. Acute dermal toxicity (LD50): 1060 mg/kg [Rabbit]. Acute toxicity of the vapor (LC50): 562

[Mouse].

Chronic Effects on Humans: MUTAGENIC EFFECTS: Mutagenic for mammalian somatic cells. Mutagenic for bacteria and/or yeast. May cause dam

following organs: kidneys, mucous membranes, skin, teeth.

Other Toxic Effects on Humans: Extremely hazardous in case of inhalation (lung corrosive). Very hazardous in case of skin contact (irritant), of ingestion,

case of skin contact (corrosive, permeator), of eye contact (corrosive).

Special Remarks on Toxicity to

Animals:

Not available..

Special Remarks on Chronic Effects May affect genetic material and may cause reproductive effects based on animal data. No human data found.

on Humans:

Special Remarks on other Toxic

Effects on Humans:

Acute Potential Health Effects: Skin: Extremely irritating and corrosive. Causes skin irritation (reddening and itching, in cause blistering, tissue damage and burns. Eyes: Extremely irritating and corrosive. Causes eye irritation, lacrimation, May cause burns, blurred vision, conjunctivitis, conjunctival and corneal destruction and permanent injury. Inhalati respiratory tract irritation. Affects the sense organs (nose, ear, eye, taste), and blood. May cause chemical pneumonit pulmonary edema. Severe exposure may result in lung tissue damage and corrosion (ulceration) of the mucous membran also cause rhinitis, sneezing, coughing, oppressive feeling in the chest or chest pain, dyspnea, wheezing, tachypnea, cy nausea, giddiness, muscular weakness. Ingestion: Moderately toxic. Corrosive. Causes gastrointestinal tract irritation (but not be a continuous the mouth, throat, and abdomen, coughing, ulceration, bleeding, nausea, abdomial spasms, vomiting, hematemesis, di affect the liver (impaired liver function), behavior (convulsions, giddines, muscular weakness), and the urinary (Hematuria, Albuminuria, Nephrosis, acute renal failure, acute tubular necrosis). May also cause dyspnea or asphyxia shock, coma and death. Chronic Potential Health Effects: Chronic exposure via ingestion may cause blackening or erosic jaw necrosis, pharyngitis, and gastritis. It may also behavior (similar to acute ingestion), and metabolism (weight loss). via inhalation may cause asthma and/or bronchitis with cough, phlegm, and/or shortness of breath. It may also affect the leukocyte count), and urinary system (kidneys). Repeated or prolonged skin contact may cause thickening, blackening, a skin.

12. Ecological information

www.rxmarine.com

Ecotoxicity in water (LC50): 423 mg/l 24 hours [Fish (Goldfish)]. 88 ppm 96 hours [Fish (fathead minnow)]. 75 pp **Ecotoxicity:**

(bluegill sunfish)]. >100 ppm 96 hours [Daphnia].

BOD5 and COD: BOD-5: 0.34-0.88 g oxygen/g

Products of Biodegradation: Possibly hazardous short term degradation products are not likely. However, long term degradation products may arise.

Toxicity of the Products of

The products of degradation are less toxic than the product itself.

Biodegradation:

Special Remarks on the Products Not available.

of Biodegradation:

13. Disposal considerations

www.rxmarine.com

Waste Disposal: Waste must be disposed of in accordance with federal, state and local environmental control regulations.

14. Transport information

www.rxmarine.com

DOT Classification: CLASS 3: Flammable liquid. Class 8: Corrosive material Identification: Acetic Acid, Glacial UNNA: 2789 PG: II

Special Provisions for Transport: Not available.
