5. Fire-fighting Measures

www.rxmarine.com

General Information	General Information: As in any fire, wear a self-contained breathing apparatus in pressure-demand, MSHA/NIOSH (approved or equivalent), and full protective gear. Containers can build up pressure if exposed to heat and/or fire. As in any fire, wear a self-contained breathing apparatus in pressure-demand, MSHA/NIOSH (approved or equivalent), and full protective gear. Water runoff can cause environmental pollution. Collect water used to fight fire. Vapors can travel to a source of ignition and flash back. During a fire, irritating and highly visible smoke may be generated by thermal decomposition or combustion. Flammable Liquid. Can release vapors that form explosive mixtures at temperatures above the flashpoint. Use water spray to keep fire-exposed containers cool. Water may be ineffective. Vapors are heavier than water and a fire may be spread by the use of water. Vapors may be heavier than air. They can spread along the ground.

6. Accidental Release Measures www.rxmarine.com

General Information	Use proper personal protective equipment as indicated in Section 8.
Spills/Leaks	<p>Spills/Leaks: Absorb spill with inert material (e.g. vermiculite, sand or earth), then place in suitable container.</p> <p>Absorb spill using an absorbent, non-combustible material such as earth, sand, or vermiculite. Do not use combustible saw dust. Provide ventilation. A vapor suppressing foam may be used to reduce vapors.</p>

7. Handling and Storage www.rxmarine.com

Handling	<p>Avoid prolonged or repeated contact with skin. Avoid ingestion and inhalation. Use with adequate ventilation.</p> <p>Wash thoroughly after handling. Remove contaminated clothing and wash before reuse. Ground and bond containers and material. Do not breathe dust, vapor, mist, or gas. Do not get in eyes, on skin, or on clothing. Empty containers retain liquid (liquid and/or vapor), and can be dangerous. Keep container tightly closed. Avoid contact with heat, direct sunlight, or open flames. Do not inhale. Use only in a chemical fume hood. Do not pressurize, cut, weld, braze, solder, drill, grind, or expose empty containers to sparks or open flames.</p>
Storage	<p>Storage: Store in a cool, dry place. Store in a tightly closed container. Do not store in aluminum or lead containers as the potential for release of sulfur dioxide fumes exists. Liquid sodium thiosulfate has very low toxicity and precautions should be practiced. Rubber gloves, safety goggles and protective clothing is recommended.</p>
