2. Composition / Information on ingredients

www.rxmarine.com

Synonyms May contain oils, water, salt, sugar, HFCS, eggs, distilled or cider vinegar, lecithin, starch, preservatives, cheese, seasonings, natural and artificial flavors, colors, and other FDA GRAS approved food ingredients.

GRAS status CAS#8001-22-87 Soybean oil
All ingredients are FDA GRAS.

3. Hazards Identification

www.rxmarine.com

Description Appearance: Various
Physical State: Pourable emulsion at room or cold temperature
Odor: Various

Handling If smoking occurs from oil usage, reduce or remove from heat.
Spontaneous combustion (fire) may result from oil soaked materials such as rags, steel wool, paper and clothing. Place soaked materials in a sealed, metal container to prevent this. If smoking occurs from oil usage, reduce or remove from heat.
This product is NOT classified as hazardous according to CFR 1910, amended to conform to the United Nations Globally Harmonized System of Classification and Labeling of Chemicals (OSHA / GHS); SOR/88-66, the Canadian Controlled Products Regulations (CPR); and/or

NOM-002-SCT2003 (Mexico). However, vegetable oil (in mist form) is known to be listed

as an OSHA 29 CFR 1910.1000 Air Contaminant. Occupational exposure limits are subsequently provided in section 8 of this SDS.

No known OSHA hazards.

Not a dangerous substance according to GHS.

Health: 0

Flammability: 1

Physical Hazard : 0

May be harmful if inhaled. May cause respiratory tract irritation.

May cause slight eye irritation.

HMIS Classification

Other Information

4. First Aid Measures

www.rxmarine.com

Inhalation

No known issues.

Skin contact

Wash off with soap and plenty of water.

Eye contact

Flush eyes with water or special eyewash solution.

If swallowed

Ingestion of edible vegetable oil is nontoxic and should pass through the system.

5. Fire-fighting Measures

www.rxmarine.com

Conditions of flammability

Materials may pose fire hazard.

Special protective equipment for firefighters

Highly flammable liquid and vapor. Runoff to sewer may create fire or explosion hazard.

In a fire or if heated, a pressure increase will occur and the container may burst, with the

risk of a subsequent explosion. The vapor/gas is heavier than air and will spread along

the ground. Vapors may accumulate in low or confined areas or travel a considerable

distance to a source of ignition and flash back.

Highly flammable liquid and vapor. Runoff to sewer may create fire or explosion hazard.

risk of a subsequent explosion. The vapor/gas is heavier than air and will spread along

the ground. Vapors may accumulate in low or confined areas or travel a considerable

distance to a source of ignition and flash back.

Wear self-contained breathing apparatus for firefighting if necessary.

Specific hazards arising from the Chemical Oil

Risk of ignition. Rags and other materials containing this product may heat up and spontaneously ignite if exposed to air. Store wiping rags and similar materials in metal cans with tightly fitting lids. Cool closed containers exposed to fire with water spray. Avoid hot oil; if smoking occurs during application reduce or remove from heat.

Hazardous combustion products

Hazardous decomposition products formed under fire conditions. Nature of decomposition products not known.

spray to keep fire-exposed containers cool. Promptly isolate the scene by removing all persons from the vicinity of the incident if

there is a fire. No action shall be taken involving any personal risk or without suitable

training. Move containers from fire area if this can be done without risk. Use water

spray to keep fire-exposed containers cool.

6. Accidental Release Measures

www.rxmarine.com

Personal Protection

Avoid breathing vapors, mist or gas. Recommend exhaust fans over grills and deep fryers.

Environmental Precautions

Prevent further leakage or spillage. Do not allow product to reach soil, sewage or any water sources. Dispose per local, state, and federal regulations.

Methods and materials for containment and cleaning up

Keep in suitable, closed containers for disposal. Dispose of rags used in clean up. Remember oil soaked rags or partially cleaned materials may spontaneously combust.
