

## 1. Product and Company Identification

www.rxmarine.com

Product Name RXSOL-14-2066-210  
Product Type Antifoam Defoamer Silicon Free

### Company Details:

RX MARINE INTERNATIONAL  
105, A wing , BSEL , TECH PARK.  
VASHI ,NEW BOMBAY 400703 INDIA

STOCK Point ::: Fujairah, Mumbai, Chennai, Kandla, Kolkata, Visakhapatnam, Fujairah, Muscat, Kenya Africa, Canada

Phone +91 22 27815541 / 42  
Fax +91 22 2781 1318 :::AOH :0091 9821214367  
Email [mail@rxmarine.com](mailto:mail@rxmarine.com)

## 2. Composition / Information on ingredients

www.rxmarine.com

Name	CAS number	%
Polymeric polyols	-	20-40
Proprietary Blend	-	20-40

## 3. Hazards Identification

www.rxmarine.com

Physical state	Liquid.
Odor	Faint odor.
Color	Clear.
OSHA/HCS status	While this material is not considered hazardous by the OSHA Hazard Communication tandard (29 CFR 1910.1200), this MSDS contains valuable information critical to the safe handling and proper use of the product. This MSDS should be retained and available for employees and other users of this product.
Emergency overview	CAUTION! MAY CAUSE EYE IRRITATION. Avoid breathing vapor or mist. Avoid contact with eyes. Wash thoroughly after handling.
See toxicological information (Section 11) GENERAL INFORMATION	Read the entire MSDS for a more thorough evaluation of the hazards.

## 4. First Aid Measures

www.rxmarine.com

Eye contact	Check for and remove any contact lenses. Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical attention immediately.
Skin contact	In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Wash clothing before reuse. Clean shoes thoroughly before reuse. Get medical attention immediately.
Inhalation	Move exposed person to fresh air. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. Loosen tight clothing such as a collar, tie, belt or

Ingestion

waistband. Get medical attention immediately.

Wash out mouth with water. Do not induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Get medical attention immediately.

Notes to physician

No specific treatment. Treat symptomatically. Call medical doctor or poison control center immediately if large quantities have been ingested.

## 5. Fire-fighting Measures

[www.rxmarine.com](http://www.rxmarine.com)

Flash point

Closed cup: 229.4°C (444.9°F)

Hazardous thermal decomposition products

No specific data.

Extinguishing media

Use an extinguishing agent suitable for the surrounding fire.

Suitable

None known.

Not suitable

Special exposure hazards

Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

Special protective

Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

equipment for fire-fighters

## 6. Accidental Release Measures

[www.rxmarine.com](http://www.rxmarine.com)

Personal precautions

No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment (see Section 8).

Environmental precautions

Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

Methods for cleaning up

Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see section 1 for emergency contact information and section 13 for waste disposal.

## 7. Handling and Storage

[www.rxmarine.com](http://www.rxmarine.com)

Handling

Put on appropriate personal protective equipment (see Section 8). Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.

Storage

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see section 10) and food and drink. Keep

container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

## 8. Exposure controls and personal protection

www.rxmarine.com

Recommended monitoring procedures	If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment.
Engineering measures	No special ventilation requirements. Good general ventilation should be sufficient to control worker exposure to airborne contaminants. If this product contains ingredients with exposure limits, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure below any recommended or statutory limits.
Hygiene measures	Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
Personal protection Respiratory	In case of inadequate ventilation wear respiratory protection. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.
Hands	Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.
Eyes	Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists or dusts.
Skin	Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Environmental exposure controls	Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

## 9. Physical and chemical properties

www.rxmarine.com

General information	
Appearance	Clear
Physical state	Liquid. Faint odor.
Odor	
Important health, safety and environmental information	
Boiling/condensation point	>35°C (>95°F)
Melting/freezing point	Not available.
Flash point	Closed cup: 229.4°C (444.9°F)
Flammable limits	Not available.
Auto-ignition temperature	Not available.
Vapor pressure	Not available.
Partition coefficient: noctanol/ water (log Kow)	Not available.
Viscosity	Kinematic: 1.75 cm <sup>2</sup> /s (175 cSt at 40°C)
Density	Not available.

Evaporation rate (butyl acetate = 1)

Not available.

## 10. Stability and reactivity

[www.rxmarine.com](http://www.rxmarine.com)

Chemical stability  
Hazardous polymerization

The product is stable.  
Under normal conditions of storage and use, hazardous polymerization will not occur.

Conditions to avoid  
Materials to avoid  
Hazardous decomposition products

No specific data.  
isocyanate  
Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## 11. Toxicological information

[www.rxmarine.com](http://www.rxmarine.com)

Potential acute health effects

Inhalation  
Ingestion  
Skin contact  
Eye contact

No known significant effects or critical hazards.  
No known significant effects or critical hazards.  
No known significant effects or critical hazards.  
Slightly irritating to the eyes.

Potential chronic health effects

General  
Target organs  
Carcinogenicity  
Mutagenicity  
Teratogenicity  
Developmental effects  
Fertility effects  
Medical conditions aggravated by over-exposure

No known significant effects or critical hazards.  
No known significant effects or critical hazards.  
No known significant effects or critical hazards.  
No known significant effects or critical hazards.  
No known significant effects or critical hazards.  
No known significant effects or critical hazards.  
No known significant effects or critical hazards.

## 12. Ecological information

Environmental effects  
Other adverse effects  
Other ecological information  
BOD5  
COD  
TOC

No known significant effects or critical hazards.  
No known significant effects or critical hazards.  
Not determined.  
Not determined.  
Not determined.

## 13. Disposal considerations

[www.rxmarine.com](http://www.rxmarine.com)

Waste disposal

The generation of waste should be avoided or minimized wherever possible. Significant quantities of waste product residues should not be disposed of via the foul sewer but processed in a suitable effluent treatment plant. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of

environmental protection and waste disposal legislation and any regional local authority requirements. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Disposal should be in accordance with applicable regional, national and local laws and regulations.

## 14. Transport information
